## *Wisconsin Flora now available by email!*

The Botanical Club of Wisconsin's newsletter, "Wisconsin Flora", is available to BCW members at its time of publication by email (as a PDF attachment). Adobe Acrobat Reader is available as a FREE download.

[Adobe Acrobat Reader](#) allows your computer to open PDF files. Most of you probably have this on your computers already.

What are the advantages of having an electronic newsletter?

- You can receive a beautiful FULL COLOR publication in perfect condition
- You can print off only the pages YOU want to save
- The BCW can help save a few trees
- The BCW can save money on printing and postage costs (the yearly cost of *Wisconsin Flora* could fund an additional student scholarship!)

If you have not already responded because of non-current email addresses or you just don't turn on your computer very often, PLEASE email me [bcwlynn@frontiernet.net](mailto:bcwlynn@frontiernet.net) with ONE of the following messages:

YES - I'd like to receive *Wisconsin Flora* by email.  
NO - I would like to continue to receive a paper copy of *Wisconsin Flora*.

## About The Wisconsin Flora...

Wisconsin Flora is published quarterly by the Botanical Club of Wisconsin. Its purpose is to provide BCW members with timely news about Wisconsin plants, field trips, and meetings and to present brief articles of interest to Wisconsin's plant enthusiasts. **Contributions are welcome and should be emailed to the Interim Editor, Lynn White: [bcwlynn@frontiernet.net](mailto:bcwlynn@frontiernet.net)**

*Editor's Note: I am still learning how to use Pages (part of Apple iWorks) to produce the Wisconsin Flora. Please forgive me for any odd spacing around the photo credits.*

*Wisconsin's only organization  
dedicated to the study of our native flora.*

Founded in 1968 as an affiliate of the Wisconsin Academy of Sciences, Arts and Letters, the Botanical Club serves the interests of amateurs and professionals, toward the common goal of learning more about our state's diverse vegetation.
